SEVENTEENTH SUNDAY IN ORDINARY TIME

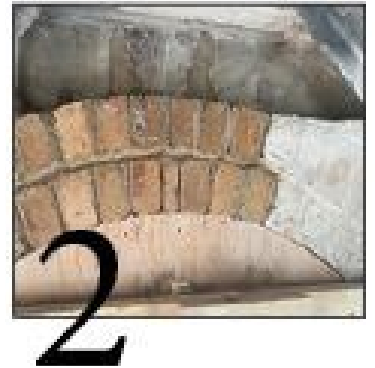

A MESSAGE FROM...

Steeple Repair Ringing True

We want to give you an update on the bell tower and steeple repair project. Overall, the project is going smoothly. Up to this point in the project, most of the work has been taking place inside the bell tower.

In December of 2020 we applied a waterproof coating to the small floor area located at approximately the level of the top of the louvers. Then in the spring we began the project in earnest. The limestone on the exterior of the tower at the louvre level was initially held in place by mortar but also clips that were beginning to corrode/rust. This corrosion was starting to have a negative effect on the limestone, so the original clips were removed and have been replaced with stainless steel hardware. We used stainless steel as it does not corrode as readily as other metals. Stainless steel reinforcement rods were also installed behind the bricks located above the windows to prevent the bricks from moving apart (see pictures 1-6). Lastly, rustproof paint was applied to the metal support that is helping to hold the limestone in place at the louver level.

Moving to the exterior façade; for several weeks the bell tower has been cleaned with multiple cleaning solutions and processes. As the bell tower and copper steeple are nearly 70 years old, some of the stains have migrated deep into the limestone. However, the cleaning process has been quite effective.

In late July, the focus will turn to replacing and repairing some of the exterior limestone. You may hear sawing and drilling as some small pieces of limestone were removed.

Continued on Page 3

Continued from Page 2:

More stainless steel hardware will be inserted through the limestone to secure it to the interior cinder blocks. As well, a band of limestone about one-foot-high extending all the way around the bell tower will be removed and replaced. Early this week the windows and louvers were removed. In a couple of weeks, we will extend the height of the scaffolding to allow access to the

copper steeple itself. The old copper will be entirely removed and replaced with new copper. Please know that I enjoy speaking with all of you and answering your questions regarding the project. Don't hesitate to ask!

Racism and Voting

Ninth in a series of nine USCCB backgrounders on racism and systemic racism, wealth, education, employment, housing, migration, criminal justice, the Native American experience, and voting. [Combatting Racism - Parish Resources | USCCB](#)

The Church teaches that all persons have both a legal right and a responsibility to have their voice heard in the public square to promote human dignity and the common good of society. As people of faith, we have the obligation to help shape the moral character of society by voting and other acts of public participation. We also must act to ensure that the right to vote is protected for all citizens. This has often been threatened for many minorities in the U.S. Since the 1870s, threats of violence and actual violence, especially in the South, had been used to discourage African Americans from voting. Injustices prompted the Voting Rights Act of 1965, which was initially successful in eliminating many of the barriers to voting for minorities. However, a 2018 Report by the U.S. Commission on Civil Rights detailed a decline in the Act's enforcement. The report suggests Latino Americans, Native Americans, and African Americans are facing new barriers to voting.

- Some Catholic voices are raising concerns about voter identification laws seen in many states in recent years. The Maryland Catholic Conference opposed one such legislative proposal in 2017, which would “make voting more difficult for people with disabilities, the elderly, and the poor,” who “have already established their identities via voter registration.”
- State Catholic conferences have also been vocal about other issues related to access to voting, including gerrymandering and restoration of voting rights. Others raise concerns about restrictions on early voting, lack of local and accessible registration opportunities and precinct voting locations (especially true in the South and on Native American reservations), and illegal purges of voting rolls, which disproportionately affect African-American and Latino American voters.
- One in ten Latinos have been harassed at polling places.
